# TILTFY OVERLAY // ALERTS

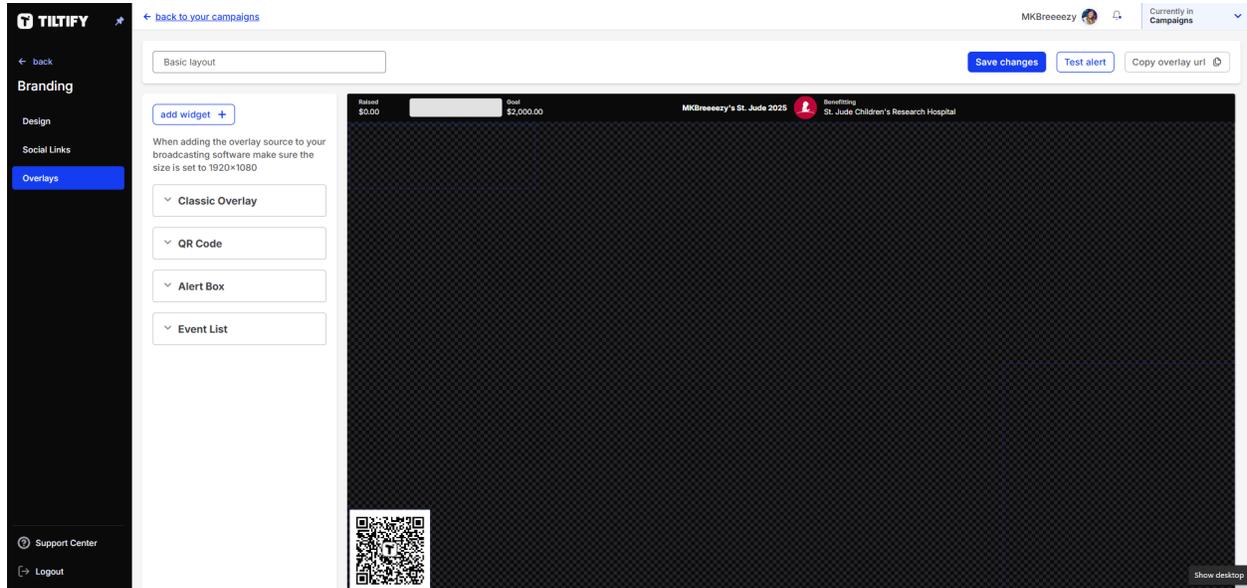

1. After creating your Campaign within our Team, you will have access to your Dashboard. **Click** on “Branding,” located in the left-side menu.

The screenshot shows the Tiltify dashboard for the campaign "MKBreeezy's St. Jude 2025" for St. Jude Children's Research Hospital. The left sidebar contains a menu with "Branding" selected. The main content area shows campaign statistics: Raised \$0.00, Goal \$2,000.00, Team campaign (Pokémon Community Charity Stream) with \$5.00 raised, and Fundraising event (St. Jude Game Warp 2025) with \$2,237.08 raised. Below the statistics are sections for "Your campaign links" (View campaign, QR code, Copy campaign link, Copy donate link, share buttons) and "Amplify your campaign" (Share link to find followers). At the bottom, there are four action cards: "Create a schedule", "Add incentives", "Add milestone", and "Add media", each with a brief description and a "Schedule" or "Media" button.

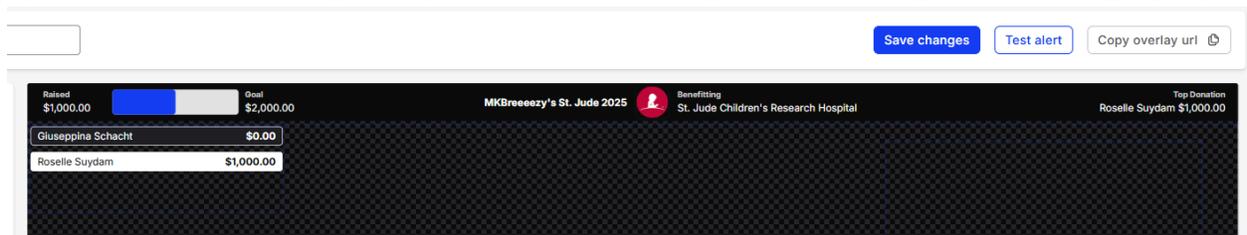

2. Next, **Click** on “Overlays,” located in the left-side menu. You will then see the screen below. **Click** “Create an Overlay.”

The screenshot shows the "Campaign Overlays" page for MKBreeezy's St. Jude 2025. The left sidebar has "Overlays" selected. The main content area features a "Create an overlay" section with the text "Customized overlays to display on any live stream for any event." and two buttons: "Create an overlay" and "Import overlays".

3. You will be brought to a standard overlay which includes a progress bar, alert box, event list, and QR code. **We recommend keeping the progress bar and alert box, at minimum.** You can adjust the size and location of these various widgets, as well as explore/customize other widgets available, using “add widget +”.

4. Once your changes are made, **Click** “Test Alert” in the top right-hand corner to make sure your alerts are in a suitable place for your stream set-up. These will only Test Alert within the Tiltify website; they will NOT test alert in your OBS. Finally, once you are satisfied with your layout, **Click** “Save Changes.” If you do not save changes, the next step will not work properly.

5. Once your changes are saved, **Click** “Copy overlay URL” in the top right-hand corner. Open your OBS and Create a Browser Source on a scene of your choice. **Paste** the copied overlay URL as your browser source. *When adding the overlay source to your broadcasting software make sure the size is set to 1920x1080.*
